Out of this World Hospitality

Individuality is as important as being part of a strong team. We encourage on purpose our development partners and architects to develop unique and exciting properties and then let them be managed within six unique brands, Eclipse Hotels remains the visionary leader. With our commitment to pacesetting innovation, lifestyle-focused design, signature services and building strong traveler loyalty, Eclipse Hotels continues to reshape perception among guests — and developers — demonstrating just how rewarding the hotel experience can be.

Combine these attributes with dedicated team support, and dynamic sales and distribution systems, and the results are industry-leading premiums and unparalleled success for our managed development partners.

Working with the right partners in the right places on the right properties, Eclipse Hotels continues to expand our portfolio to everywhere our guests want to travel.
